Citation should ideally list the local organisations, roles and timescale which the awardee has been involved with.

Unlikely to make an award to somebody who has been involved for less than three years but a long length of service will not in itself necessarily merit an award

Award can be made to services provided in a professional or business capacity (*ie for profit rather than as volunteer*) but in such cases awards will only be made where that service not only meets above criteria, but is considered to be particularly exceptional
